SKILLS

- **Programming skills**: Python, C++, R, Java, .Net, C, Node.js, PHP
- **Databases:** Oracle: PL-SQL, SQL, MySQL, NoSQL, MongoDB and SQL Server 2005/2008
- **Framework:** WCF, WPF, MVC, AJAX, AngularJS, JUnit
- **Web technology:** HTML5, CSS3, JavaScript
- **Operating Systems:** Linux, macOS, UNIX, Windows
- **Other:** Hadoop, Flask, Informatica, TIBCO EMS, shell script, Git, Agile and waterfall methodology

PROFESSIONAL EXPERIENCE

CGI | Consultant| Columbia, USA **June 2017 – Current**

- Working on Informatica Workflow Monitor/Manager and Power center developer such as configuring the DB, Checking session and Workflow logs and motoring the workflows.
- Enhance and work on the Unix Shell Scripts and ksh/bash shell to automate backend report and other jobs.
- Scheduling jobs on AutoSys scheduler including monitoring and admin task on the UNIX servers.
- Ensured compliance of client SLAs and creating reports using automated tool (BOXI) for management.

UNIVERSITY OF SOUTH CAROLINA | *Graduate Assistant* | *Columbia, USA* **Feb 2016 – May 2017**

- Developed a high performance computational tool based on python and R to effectively mine the spatiotemporal patterns of people's experience, needs and opinions.
- Performed descriptive and multivariate statistical analyses of the processed twitter data using python libraries numpy, skfuzzy etc.

UNIVERSITY OF SOUTH CAROLINA | *Graduate Teaching Assistant* | *Columbia, USA* **Jan 2017 – Dec 2017**

- Instructed and assisted students in the Algorithm Design Lab for development of algorithms and computer programs involving data structures using Java.
- Involved in teaching front end web designing involving HTML5, CSS3, JS and MIT App inventor to students and help them to understand the fundamental concepts related to computer programming.

Saffron e-Services | *Project Intern* | *Noida, India* ***May 2013 – June 2013***

- Assisted a developing team working on a project titled "Social world" that connected social networks and e-learning.
- Scrutinize & anatomize C# implemented projects to comprehend software development strategies and approaches.
- Used SQL database and ADO.net for its storage and connectivity purposes, Worked on GUI Part of various models with the help of ASP.Net and AJAX
- Tested & debugged various modules to find out bugs and removed them under the guidance of the testing team.

Silicon Star Info India Private Ltd. | Software developer Intern | *Jaipur, India* **June 2012 – July 2012**

- Worked as a developer intern with a team to automate some of the company payroll management department work.
- Developed various modules including payroll computation and reports generation module in Visual basic and C++.
- Optimized code of the modules to reduce the execution time and maximize the efficiency.

EDUCATION

Master of Engineering in **Computer Science and Engineering** **May 2017**
University of South Carolina - Columbia **| GPA 3.4**

Bachelor of Technology in **Computer Science and Engineering** **May 2014**
Amity University - India **| GPA 3.73**

CERTIFICATIONS

- Certificate of Graduate Study in Information Assurance and Security

PROJECTS

- **MEETING ENGAGEMENT AND TRACKING SYSTEM:** Meeting organize and track system for employees implemented using agile scrum process in Java, MySQL database, Emma and Junit.
- **COMPILER CONSTRUCTION:** Designed and implemented a C Compiler (and assembler into x86) on Linux 32-bit architecture using flex and bison.
- **APP DEPLOYER USING DOCKER AS PAAS (PLATFORM AS A SERVICE):** Docker based application implemented using python for handling application related deployment on virtual environment on cloud.
- **MOTEL RESERVATION SYSTEM:** Web based J2EE application that maintain organization online identity and helps to serve their client along with automation of assets, data maintenance task and bill processing system
- **CLIENT SERVER MESSAGE EXCHANGER:** C# based application that multicast a message between users in an environment
- **SPATIOTEMPORAL PATTERNS TOOL:** Developed a tool using python, R and packages numpy, mathplotlib, skfuzzy, wordcloud to predict the behavior or reaction of people on social media during any event or activity.

AWARDS AND EXTRACURRICULAR

Scholarships: Merit based Scholarship of 75% tuition for graduate school from University of South Carolina.
Awards: Won Gold medal in the state level competition for website design and programming.
Praised and Awarded medal for software implementation in the competition for an organization.
Praised and Awarded Leadership, Initiative and value added to enterprise awarded while working in CGI
